A THOROUGH EDUCATION

● **Is one of the greatest assets that the young people of today can acquire.**

An education does not mean that which one learns from a book. By studying diligently and mastering your subjects in school to give you the fundamental principles by which you may acquire an education. To be educated is to be able to cope with circumstances and overcome obstacles that you will run into in life's pathway.

Be sure that you make good use of the very wonderful advantages provided by your parents that you may be better fitted for life's journey than they.

It is with pleasure that we compliment the Board of Education and Faculty of the High School of Beckley for the wonderful facilities that are provided for the youth of our town.
