"Wolf"
He, who does not love wine, women, and song,
Remains a fool his whole life long.

Jewell Ellwood Tolbert
A quiet blonde we all admire.

Brownye Lou Tolliver
She never puts off till tomorrow
what she can do today.

Elizabeth Cecilia Tonelli
"Tony"
Dark and beautiful hair,
Sweet and friendly smile.

STEPS IN THE SCALE OF LEARNING

CHAPTER I—NINTH GRADE

When the fall term of school opened in September 1941, many very intelligent youngsters walked proudly but shyly from the Junior High School building to the great Woodrow Wilson Senior High School.

After taking two or three days to get acquainted we settled down to business by immediately organizing our class and electing as our officers for the year: Joyce Stover, President; Virginia Phillips, Vice President; Dorothy Stanley, Secretary; and Emily Lou Cline, Treasurer.

Our accomplishments were great and numerous, but our joys were great also. Our first social affair was the customary Freshman Barn Dance. Everyone congratulated our co-sponsors Coach Clarence Underwood and Miss Thelma Batesole for making such a splendid success of the party.

After being told in the spring that we would all be Sophomores the next fall, we went home to rest our weary brains for the coming year.

CHAPTER II—TENTH GRADE

When school opened the following fall, there came to Woodrow Wilson High School the remainder of our present senior class. The two divisions of our class united immediately and in no time at all we had all become great friends.

Several days after the opening date we assembled in the auditorium and got off to a flying start by choosing the officers we hoped would best represent us during the year. They were: Joyce Stover, President; Philip Verduce, Vice President; Anne Kester, Secretary; and Jack Gilmore, Treasurer. These officers proved their capabilities throughout the term.

Our class was well represented in the annual sports events, as several boys from our class played on the football, basketball, and track teams.

One of the most thrilling events staged during the year was the informal party given instead of the usual Colonial Ball. We looked forward with great enthusiasm to this outstanding event of our Sophomore year and we all enjoyed it when it was given.

CHAPTER III—ELEVENTH GRADE

We returned early in September to resume our studies and we began the year with a determination to live up to the record that we had established throughout the previous years. Our class had decreased in the number of boys compared to the year before, due to the fact that several boys had gone into the armed services of our country. We organized our Junior Class, choosing Bob Goldsmith, President; Paul Brown, Vice President; Mary Ann Putman, Secretary; and Philip Verduce, Treasurer.

Miss Lura Clay was chosen our very loyal sponsor and she performed faithfully and well until she became ill. For the remainder of the year we were without a definite sponsor. However, Mrs. L. T. Durrance came to our rescue and did a very good job in making our class activities a big success.

Athletics played a large part during our Junior year and did much to add color to the year's program. This year our class was even better represented than in our Sophomore year, and we won many honors from the fine work performed by our football and basketball teams.

When the time rolled around to begin work on our class play, "Maybe Love" directed by Mrs. Ferne Grogan Adams, we really felt that we had obtained some recognition and we were very proud of ourselves.

The Junior Class Party known also as the Junior Informal Party was among the social highlights of the year. We will remember this party for the exceptionally good entertainment and decorations.

As spring came, the Junior-Senior Prom came too. Long before it actually was given we had all begun to plan about the wonderful time we would have. And no one could possibly say they were disappointed. This was one of the activities we will remember for a long time.

Now that this our Junior year was over, we turned our thoughts to the coming fall and awaited the opening of school eagerly for soon we were to be called "Seniors."

CHAPTER IV—TWELFTH GRADE

At last! Yes, now we had really become Seniors and we felt very proud.

Soon our class officers were elected. They were: Ralph Dover, President; Edsel Ashworth, Vice President; June Fitzgerald, Secretary; and Douglas Bolen, Treasurer.

Again this year we had no particular person as our class sponsor. Different teachers were assigned to the various activities of the year. Our Senior year was crowded with activities. We started off with the football games which were very successful. The patriotic band maneuvers and fireworks between the halves of the games were most effective.

Next came the basketball season with all its excitement and thrills. Altogether our sports season was very successful although there were a few defeats.

The Senior Class play, "The Patsy" directed by Mrs. Frank Vass, was delayed for two weeks due to a great blizzard that marooned everyone. The play was judged very successful when finally it was given.

After the first semester of school we settled down a little more and began to devote more time to our studies. "Kid Day" was exactly what the name implies. All seniors forgot that they ever had any dignity and really acted like grade school children.

And now it is graduation night. This is what we had waited for. But as we sat silently upon the stage thinking about the good times we had had together, we had a feeling of regret that our school days were over. We wondered what the future would hold for us, but we realized that only time would tell. And as we walked slowly from the stage we closed these chapters of our life looking forward eagerly to the new chapters to come.

THE UNFINISHED SYMPHONY

Patty Stinnette, who got an early start in life, is now modeling gas masks for the Army.

Paul Brown has taken a deep interest in the shoemakers trade. He is learning the make of little "Boots."

Edsel Ashworth, who was chosen the "silent type," is now a missionary in Wango Wango.

Edwin Harvey, who was voted best dressed man of '45, is a meat packer in San Francisco.

Earl Ray Huddle, who was always too noisy, is now a barker for "A Great Side Show Team." "Just step inside folks and see the brain, Douglas Bolen, and the voice, Tom Perdue."

Mary Lou Keyser is now a bar maid at the "Lowell Newsome Grill."

Doris Scott has just been voted "The Shape" by the wolves of Beckley.

Libby Lamb is serving a five year sentence for getting school days and holidays confused.

Ralph Dover has just resigned from his usual job to pose as "Superman" in advertising the new "Tuffy Tuff" breakfast cereal.

Jim Sigmund and Raymond Lamb have just turned down offers from Harry James and Gene Krupa in order to continue their work here with the Rhythm Masters.

Denny Mays, the mad scientist, has invented an amazing new explosive which he uses in the manufacture of firecrackers.

Ben Carney, famous psychologist, is deeply involved in the subject of "Why teachers go mad." He got his start under Miss Keyser.

Meridith Trent is farming corn and raising pigs in Iowa. At feeding time he aways recites the "Recessional" to every pig.

Much to our surprise, Mrs. Bostic has retired and Joan Hardin now issues the unexcused absences.

We also find Gladys Thabit in W. W. H. S. teaching a six-year course in Spanish. The most diligent student is Mr. Herrera.

The most outstanding orator and public speaker of our time is Pat Halbert, who began by telling fairy tales to the second grade.

Jimmy Furbee is a foreign diplomat now and referees all big league checker games between the nations.

David Hall is filling his ambition by pushing an apple cart through city streets and gazing at the architecture as he passes.

Jack Gilmore, a professor in one of our largest universities, is lecturing three hours a week on "The Benefits of Chewing Tobacco."

Contrary to what we would have imagined, Bob Goldsmith has just been voted the quietest human in the country.

We find Violet Earle Snead merrily whistling at her job of chief cigarette roller in the Lucky Strike factory.

Sam Carman and Margaret Rose Malone are co-partners in a booming undertaking business. Most of their work comes from overworked teachers and students at W. W. H. S.
